
SPECTRUM SURVEY

The following survey page is for those who have students in the Spectrum group (age 10 and up). This survey is not a schedule, or a commitment that we will execute these activities; but rather, a guideline, to see what your students would be interested in. It is wise to involve them to some degree in making your selections. We are only able to offer events/classes that we have volunteers for.

We will try to meet on Wednesdays when Rainbow's End is not in session.

Younger siblings are always welcome at the parent's discretion and with the parent's supervision. Events are geared for the older kids and their participation only.

Your activity in Spectrum counts toward your "active" membership status in Rainbow's End.

The survey page includes ideas received from the RE survey for the 2007-2008 school year. Please check items you/your student are interested in. You may select as many as you would be sure you could be committed to. Please put an asterisk* by any event/class that you would be willing to assist in. The end of year survey indicated "hands down" that we should have a **combination** of fellowship and challenging events. Please take this into consideration as you make your selections.

We look forward to expanding this program in the years to come as we trust our faithful God to empower us to persevere in our desire to raise children for His glory and His purposes. Thank you in advance for your participation.

Mindy, (RE Board Liaison)
Cate, Barbara, and Kris ☺

PS-All surveys are due no later than September 9 and may be returned to Kris via e-mail (kdawson@mrk.com) or handed to a board member at Registration Picnic/Orientation. You may also snail mail to Kris (101 Timber Trail Island lake 60042) or WEFC c/o Rainbow's End (700 Liberty St. Wauconda, 60084).

Fellowship

- _____Movie night, with worldview discussion following, preceding
- _____Capture the flag, bonfire night
